Austria Cameracrew

Is a network of camera operators and filmmakers based in Vienna, successfully operating for over 20 years in and outside of Austria.

We specialize in supplying experienced camera teams for international film productions and television stations in both PAL and NTSC standards.

Another of our specialties lies in event technology and Photography, as well as the production of films in cooperation with various specialists and our partner companies.

Services

Our service is built around providing, depending on customer requirements, camera equipment and or film crews. To do this we cooperate with various partner companies such as, film productions, rentals houses and freelance professionals.

Our expertise lies in the following areas:

ENG Two-man teams for current affair and news reporting
TV documentaries
Industrial films
Time-lapse HD long-term projects
Extensive hidden camera know-how

Production of films, from start to finish

Organization of visual services for events, such as: video recording, big screen projection with multi camera setups or Internet live streams.

Production of website video clips

Photography for journalistic purposes, studio, as well as postproduction and finishing.

Equipment

ENG(Electronic News Gathering)
